

# VENICE

Terrazzo effect porcelain tiles

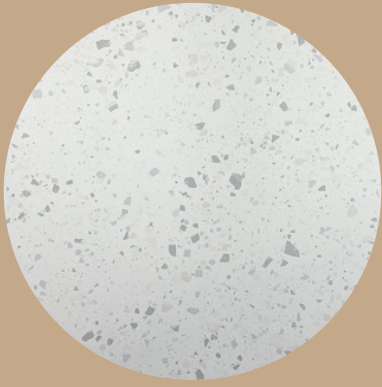

# DESIGN

Venice is well-known for its historical use of terrazzo flooring. Artisans in Venice would use leftover marble and stone chips, combining them with cement to create beautiful and durable flooring.

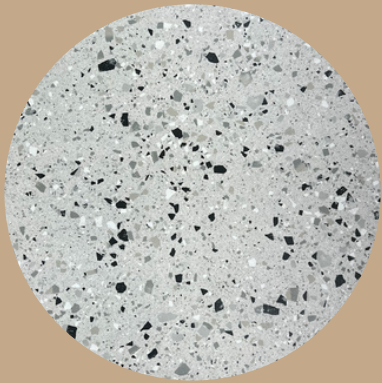

‘Venice’ is a stunning range of porcelain tiles that blend classic beauty with modern durability, capturing the essence of traditional terrazzo while offering the convenience of porcelain.

Perfect for any setting, from chic residential spaces to commercial areas. With a variety of colors available you can create a unique and sophisticated look that complements your style.

The surface of the tile feels matt but reaches a high level of grip when wet making it suitable for many exterior applications and areas requiring a higher level of non-slip.
